## Neželjeno pokretanje MobiBank PŠ aplikacije na Android 12 uređajima (Samsung)

- 1. Otvorite aplikaciju za Podešavanja uređaja;
- 2. Otvorite "Aplikacije";
- 3. Otvorite aplikaciju banke "MobiBank PŠ";
- 4. Odaberite taster za "Prisilno zaustavljanje";
- 5. Potvrdite da želite da zaustavite aplikaciju (nisu primećene greške); odaberite "OK".
- Napomena: NEMOJTE selektovati "Deinstaliraj" jer u tom slučaju morate ponovo aktivirati aplikaciju i obaviti redistribuciju!

## How to stop MobiBankPS opening randomly while using the Android 12 phone

- 1. Open setting app on your phone; tap "Settings"
- 2. Find Apps settings; tap "Apps"
- 3. Find digital banking app; tap "MobiBank PŠ"
- 4. Select Force stop option; tap "Force stop"
- 5. Confirm Force stop (we don't expect errors); tap "OK"
- Important: Pay attention not to select the "Uninstall" option to prevent going through the reactivation and redistribution process again!
